

# Sanjay | Senior iOS Developer

7+ years of experience building scalable, secure, and high-performance mobile apps

## Summary

I'm a seasoned iOS Developer with over 7 years of experience delivering feature-rich and user-centric mobile applications. I have worked across domains like education, fitness, crypto trading, recharge systems, and travel. My strengths lie in clean architecture, API integration, Firebase, real-time data handling, deep linking, and app lifecycle management.

## Skills

- Languages: Swift, SwiftUI, Objective-C Architecture: MVVM, MVC, Delegates, Protocols Tools & Frameworks: Firebase, CoreLocation, MapKit, WidgetKit, URLSession
- Features: Push Notifications, Deep Linking, Universal Links, Background Location
- Others: Git, Crashlytics, App Store Connect, SSL Pinning, Encryption & Decryption

## Achievements

- Successfully delivered 10+ iOS applications live on the App Store  
Reduced crash rate by 40% through optimized memory and error handling  
Handled user traffic exceeding 1,00,000+ on production-level apps
- Integrated dynamic links and deep linking for seamless user flows

## Certifications

- iOS & Swift Developer - Udemy Advanced Course  
Firebase for Mobile Developers - Coursera  
App Deployment and CI/CD with TestFlight - Internal Training
